

PETITION

TO MAYOR GERALD TREMBLAY AND THE CITY COUNCIL OF MONTREAL.

WE, the undersigned residents of the City of Montreal, draw your attention to the following:

THAT circus animals often rebel against the intensive confinement and lifestyle of travelling circuses by escaping and rampaging through city centers, and thus pose a threat to the safety of residents.

THAT the presence of circus animals within an urban environment poses a health risk to citizens due to the fact that many circus elephants are carriers of Tuberculosis and other contagious diseases.

THAT the inherent nature of circuses causes sentient animals to suffer from severe stress, and deprives these animals of any semblance of a natural existence.

THAT several countries and Canadian municipalities have already passed legislation banning the use of animal acts in circuses because of these factors.

THEREFORE, YOUR PETIONERS CALL UPON YOU TO ENACT LEGISLATION TO BAN EXOTIC ANIMAL ACTS WITHIN THE ENVIRONS OF THE CITY OF MONTREAL.
